Royce Micro-Cap Trust, Inc. (NYSE-RMT)
CUSIP 780915104

The distribution, optionally payable in additional shares of Common Stock, or in cash by specific stockholder election, is to be paid on June 23, 2023 to stockholders of record at the close of business on June 12, 2023 (ex-dividend on June 9, 2023). The price of shares issued for reinvestment will be determined on June 20, 2023.

Fund	Distribution Per Share
RVT	\$0.25
RMT	\$0.17

The reinvestment price is determined on the valuation date by the lower of the last reported sale price at the close of regular trading on the Funds' listing Exchange or the net asset value per share on the valuation date (but not less than 95% of the last reported sale price on that date).

The Funds estimate that they have distributed more than their income and net realized capital gains; therefore, a portion of the Funds' distributions may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in a Fund is paid back to you. A return of capital distribution does not necessarily reflect the Funds' investment performance and should not be confused with 'yield' or 'income'.

The Funds' estimated sources of the distribution to be paid on June 23, 2023 and for 2023 year-to-date are as follows:

You should not draw any conclusions about a Fund's investment performance from the amount of the current distribution or from the terms of a Fund's Distribution Policy. The amounts and sources of distributions reported herein are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon a Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.
