NA¹ - Composite dispersion is not presented for periods with five or fewer portfolios in the composite for the entire year.

NA² - The three-year annualized standard deviation is not presented for periods before 36 consecutive months of data is available.

Royce Small-Cap Opportunistic Value Composite: The Royce Small-Cap Opportunistic Value Composite contains portfolios that invest primarily in micro-cap and small-cap stocks. Micro- and small-cap companies are those that have a market capitalization not greater than that of the largest company in the Russell 2000® Index at the time of its most recent reconstitution. Prior to November 2020 the composite was described as primarily investing in micro-cap and small-cap stocks with market caps up to \$3.0 billion. The portfolios are highly diversified, investing in a large number (typically more than 200) of small-cap stocks and invest primarily in U.S. equities but may invest up to 10% in non-U.S. equities. Portfolios follow a theme-driven, deep value approach emphasizing turnarounds and special situations and select stocks with low P/S and P/B ratios. The Royce Small-Cap Opportunistic Value composite is compared against the Russell 2000 Value Index. The Royce Small-Cap Opportunistic Value composite was created in October 2018 and inception on April 30, 1998.

For the purpose of complying with the GIPS standards, the Firm is defined as Royce & Associates, LP, which primarily conducts its business under the name Royce Investment Partners. Royce is registered with the U.S. Securities and Exchange Commission (the "SEC") as an investment adviser (SEC File No. 801-8268). Royce has been investing in smaller-company securities with a value approach for more than 40 years. Royce & Associates, LP began primarily conducting its business under the name Royce Investment Partners effective December 16, 2019. The firm's full list of composite descriptions, limited distribution pooled fund descriptions, and broad distribution pooled funds are available upon request.

Royce claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Royce has been independently verified for the periods January 1, 2008 through December 31, 2023.

A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Royce Small-Cap Opportunistic Value has had a performance examination for the periods January 1, 2008 through December 31, 2023. The verification and performance examination reports are available upon request.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results. Returns include the reinvestment of all income.

The currency used to express performance is USD. For segregated accounts within the composite, gross-of-fee returns are reduced by trading costs and net-of-fee returns are reduced by trading costs and each portfolio's actual investment management fee. For pooled funds within the composite, gross-of-fee returns are reduced by trading costs for all funds and also other pooled fund expenses for some funds in the composite. Net-of-fee returns are reduced by trading costs and all actual investment management fees for all funds and also other pooled fund expenses for some funds in the composite. Composite dispersion is measured by the asset-weighted standard deviation of annual gross returns of those portfolios included in the composite for the full year. The 3-year annualized standard deviation measures the variability of the composite gross returns and benchmark returns over the preceding 36-month period. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

Important Performance, Expense, and Risk Information

Gross performance for all Composites is unaudited and presumes reinvestment of distributions. Net-of-fees performance for all Composites would be lower than the gross performance. All net-of-fees performance information reflects past performance, is presented on a total return basis, reflects the reinvestment of distributions, and does not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares. Past performance does not guarantee future results.
